for model codes and standards, premiumACCESS gives you access to the code you need when and where you need it. Quickly find what you need with robust search and use the platform's interactive features to highlight, bookmark, annotate, cut and paste, share, and archive - everything you need to efficiently use the results of your code research.

FEATURES

- **Keyword content search** allows you to quickly find the exact section of code you need.
- **Highlight, annotate, and bookmark** for future reference with easy retrieval.
- **Access anywhere** on any device connected to the Internet with seamless interaction whether on computer, tablet, or phone.
- **Collaborate and notate** questions and comments between colleagues and share externally with easy cut and paste.
