

**CCREEE**

CARIBBEAN CENTRE FOR RENEWABLE  
ENERGY & ENERGY EFFICIENCY

AN INSTITUTION OF

# CCREEE Project Preparation Facility (PPF) Information Session Private Sector

February 2021

# What is the PPF?

A 'GO-TO' facility for **converting** promising, **commercially viable** RE and EE project **concepts** into tangible **bankable projects** that can easily attract financing for implementation to build environmental and economic sustainability.

CCREEE's Vision: **Transforming** the energy landscape into a climate resilient, sustainable and affordable sector; focused on improving the lives of the region's people.

# What support does the PPF provide?

Provision of TA and advisory services for project advancement towards practical investments

Match-making services through specialised investment and business promotion forum

Maintenance and expansion regional project pipeline to showcase economies of scale to attract funding sources

Cooperation with global, LAC and regional focused programmes initiatives and projects through cooperation agreements

Support to financial institutions to build capacity in sustainable energy projects and developing financial instruments to support them

\*Supports both private and public sectors
