# Online Application

- Registering: <https://www.ccreee.org/ppf/>
- Creating an Account
- Navigating the Application Portal: <https://climate-invest.fluxx.io>
- Submitting an Application
- After Submission

# Registering to the PPF

The screenshot shows a web browser window with the URL <https://www.ccreee.org/ppf/>. The page features the CCREEE logo at the top, which includes icons for a leaf, a house, a sun, a wind turbine, and a person. Below the logo, the text reads "CARIBBEAN CENTRE FOR RENEWABLE ENERGY & ENERGY EFFICIENCY AN INSTITUTION OF CARICOM". The main heading is "How to apply". The text explains that applications are made online through the CCREEE's PPF Application Portal hosted by Climate Invest. It lists two mandatory documents: Project Proposal and Executive Summary. It also notes that while non-mandatory, applicants are encouraged to include a financial model or preliminary assessment of economic viability. A "REGISTER" button is prominently displayed. Below it, there is a "LOG IN AND START YOUR APPLICATION" button. At the bottom, there is a link to "Frequently Asked Questions (FAQs)" and an email address [ppf@ccreee.org](mailto:ppf@ccreee.org). A blue arrow button is visible in the bottom right corner of the browser window.

## How to apply

All applications to the Project Preparation Facility are to be made online through the CCREEE's PPF Application Portal hosted by Climate Invest. The online application consists of an application form and two mandatory project documents:

- Project Proposal
- Executive Summary

Although non-mandatory at this time, applicants are encouraged to include a financial model or preliminary assessment of a project's economic viability. To access the CCREEE PPF Application Portal, register and create an account by clicking the button below.

CARIBBEAN CENTRE FOR RENEWABLE ENERGY & ENERGY EFFICIENCY  
AN INSTITUTION OF CARICOM

Welcome to the CCREEE PPF Portal!

From this portal you can submit and track an application, monitor a contracted project and submit project deliverables.

The PPF offers a range of project development services to private sector projects in sustainable energy, including project financial modelling, technical feasibility, environmental and social validation, and investor matchmaking. However, please note that the PPF itself does not provide project financing. The PPF aims to support sustainable energy projects across the project development cycle, forging a robust pipeline of investment ready projects in CARICOM Member States.

Look out for the extension of the PPF services through the addition of a public sector stream to support government agencies with sustainable energy project development.

[Start New Application](#)

Before starting your application:

- Check the **PROJECT ELIGIBILITY** and **SCORING CRITERIA** below
- The **APPLICATION** consists of an online form and 3 documents (max. vol. 20MB).

# Application Form

- Organization Information
- Point of Contact Information
- Project Overview
  - Total Cost
  - Location
  - Service Summary
  - Target Market
  - Commercial Arrangements
  - Project Benefits
- Project Size
- Project Status
- Project Development Needs
  - Investment Required
